### Datawire Micronode Information

Integrated point of sales systems PCI compliant terminals available for purchase through First Data.

### Datawire Micronode Purchase

**\$449.00** (Does not include shipping and handling)

### Simplify CC Reporting with DTN

Whether you are managing a dealer network, a group of company-owned stores or a combination of both, processing the credit card settlement piece of that business can be time consuming. Transactions have to be posted every day for every location. For years now, branded marketers have had the ability to take credit card settlements for the major oil companies and automate the posting of these transactions. This is done using standard file transfers between DTN and their back office software systems. In minutes, AR accounts are instantly updated and store accounts are ready for POS reconciliation. VP Racing Fuels recognizes this dilemma and is excited to offer marketers this valuable solution. The VP package makes settlement data available via DTN providing marketers with the same seamless and efficient process currently working for their branded card settlements.

# Merchant Services Program

## Lowest Rates in The Industry

### Customer Service

- Your location will have a Petroleum Service Specialist (PSS) assigned to you that works closely with you and your staff to ensure a quick and easy transition.
- The PSS will Guide you through the install process with your pump service vendor and explain the details of the program.
- Your success is key and your PSS will be with you the entire time you are a branded VP Racing Location.

### Reporting

- Clientline/Business Tracks is our state of the art on-line reporting tool to help with Data File Management, Account Alerts, Bank Deposits, Transaction Information, Statements, Customizable e-mail Reporting, and much more.
- Our on the road app gives you access from your phone and tablets.
- Simple enrollment at [www.myclientline.net](http://www.myclientline.net)

### PCI/Monthly Scans

- Your PSS will implement the completion of the PCI questionnaire and walk you through setting up and understanding PCI scans.
- Your PSS will inform your location of scan results and expedite the completion of items to help with any failed scans.
